## MET DEATH COMING FROM THE DANCE

Fatal Accident on the Hinsdale Road in the Early Morning Hours.

A fatal automobile accident occurred between 1 and 2 o'clock Thursday morning on the Hinsdale road about a half mile beyond East Northfield.

John Conlin and Donald Duress of Greenfield were returning from a Hallowe'en dance in Keene, N. H., in a Nash sedan. Duress, who is about 20 years old, was driving.

He claims the lights of a car coming from the south blinded him. He ran into the ditch, struck a culvert railing on the opposite side of the road, the railing going through the windshield and hitting Conlin. Conlin's head was badly smashed and he died instantly.

Other cars returning from the dance assisted Duress, calling Dr. A. H. Wright, who called Constable H. M. Haskell. Dr. N. P. Wood, the coroner, was also called.

Duress was arrested and taken to Greenfield jail. The body of Conlin was taken to G. N. Kidder's undertaking rooms.

Conlin has been employed at the Mansion House in Greenfield and drove the hotel bus. He has a mother in Boston.

Duress confessed to Dr. Wright that he took several drinks of liquor before leaving Keene. His father is a baker in Greenfield where the family lives.

Duress was before the judge Thursday forenoon in Greenfield, taken by Mr. Haskell. He was cut on his head and hand.

## "PILGRIM'S PROGRESS"

300th Anniversary of the Birth of John Bunyan

This year commemorates the 300th anniversary of the Birth of John Bunyan, who wrote the world famous book, "Pilgrim's Progress."

The first edition of the book is kept in the British Museum in a glass case labelled "England's Great Books." "Pilgrim's Progress" has been translated into 122 languages and dialects, more than any book except the Bible and it does not cease to be one of the most copiously circulated books of all time.

Northfield is celebrating this anniversary in various ways. On Tuesday evening the Brotherhood went to the Second Congregational church of Greenfield where they heard an address on John Bunyan and his "Pilgrim's Progress."

On Sunday evening, Nov. 4 at the Congregational church some 60 colored stereopticon pictures will be shown, illustrating of "Pilgrim's Progress" with explanations by the pastor, Rev. F. W. Pitt.

A contest is to be instituted in the church for the young people on an essay about "Pilgrim's Progress." The essay to be submitted can contain from 1000 to 3000 words. Subjects will be suggested by the superintendent of the Sunday school. A. P. Pitt, who has the contest in charge or the young people can choose their own.

The prizes are to be, 1st, \$10; 2nd, \$5; 3rd, \$2.50. The prizes will be given by interested friends. This contest begins on November 1st and concludes January 1st.

## Christian Endeavor Notes

All young people are invited to attend our Hallowe'en social next Monday night beginning at 7 o'clock at F. B. Holton's barn. Every one is requested to masquerade. Transportation will be provided for those who do not wish to hike. Although the social committee is somewhat mysterious as to what is going to happen, a marvelous time is guaranteed.

Several of our young people attended the rally at Millers Falls on the 21st. The mumps at Mt. Hermon prevented our former president, Fay Smith, from speaking at the afternoon session, as was formerly planned. In spite of this, everyone had a jolly time.

The topic for next Sunday will be "In What Way Do We Waste Our Time." The leader will be Eldine Bryant. All young people, whether young in age or spirit, are invited to attend.

## WILL YOU FIGHT THE EUROPEAN CORN BORER?

If so, either cut out this coupon, fill it in and mail it to us or send in your name and address as being for this fight, on a postal card or by letter. It is quite important that a goodly number publicly publicly their intention of working along these lines in order to get the thing put over in a big way; and unless it goes over in a big way, the fight for the stamping out of the European Corn Borer in Franklin County will be of scant avail. Every single name on record for this fight will be of great help. If YOU grow any corn, even if only a garden patch, we need YOU. And send along your name NOW....TODAY.

"The Tri-State Weekly"  
The Northfield Press,  
Northfield, Mass.

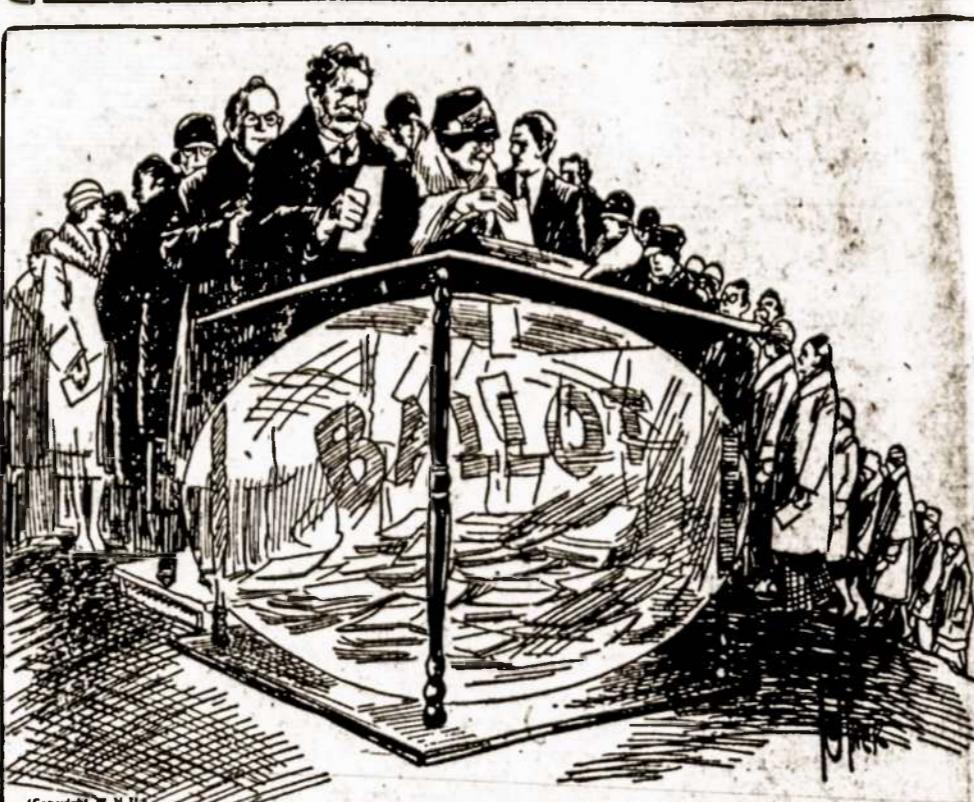

The undersigned is in hearty sympathy with you in the fight against the European Corn Borer and will do his best along the lines indicated by the Department of Agriculture, Washington, D. C.

Address .....

P. S. Why not get the signatures of some of your neighbors and friends and send them along at the same time that you send yours? The more names we can print at once, the easier it will be to get going quickly.

Seniors vs. Sophomores. The Sophomores clashed with the Seniors in another hard fought duel on the gridiron.

For a while it looked as though they had the Seniors guessing for they put over several trick plays that bewildered the upper classmen, but try as they might they could not stand against the battering attacks of the heavier Senior team. The Sophs gained four first downs while the Seniors made 12.

Horner and Wadsworth of the Senior team make a combination that is hard to beat and their forward passes are beautifully executed. Burke, the Senior fullback was the star of the game while Tippins played a good game in the line.

## Soccer

Freshmen vs. Juniors. In the soccer match between the Freshmen and Juniors Monday morning both teams played it out to a tie, the score being 1 to 1.

The game was hotly contested and provided many exciting moments for the spectators. The ball was kept well in the Juniors' territory but by dint of hard playing the Junior goal keeper managed to keep the Freshmen from scoring more frequently. He blocked three successive tries made by the opposing team. Murry played well for the Juniors, assisted chiefly by Chachis.

Seniors vs. Sophomores. The Seniors outplayed the Sophomores in a hard fought game coming out on the top side of a 1 to 0 score.

## Junior League

The younger boys at Mt. Hermon not to be outdone by their bigger brothers in the field of sport, have organized a Junior League to which any student under 16 years of age can belong.

Out of four games played the Reds under the leadership of Boetsma have captured one game while the Grays under captain J. E. Rand have romped off with one game and two were played to a scoreless tie.

As the soccer season draws rapidly to a close the boys will take up indoor baseball, basketball, gymnastics, approximately thirty fellows turning out for these events.

## Cross Country Run

The second cross country run of the season at Mt. Hermon took place on Tuesday afternoon, Oct. 30 at 5 p. m. As the runners neared the last hundred yards of the home stretch, Irish Thompson was seen plodding along in the lead with Woodland a scant fifty yards behind.

The runners finished in the following order: 1, Irish Thompson, 2nd, Woodland, 3rd, G. G. Kelly, 4th, Meader, 5th Glover, and in order as they follow: N. Keely, MacClure, Logan, Bliss, Platt, Davis, Overton, E. Moore, Abbott, Munis, Lagoon, Wilson, W. L. Johnson, Del Genio, La Beria, Martin, Gardner, Morse, Reed, Bunston, Snyder, Browning, T. P. ## Facial Blemishes

by Sylvia Stafford

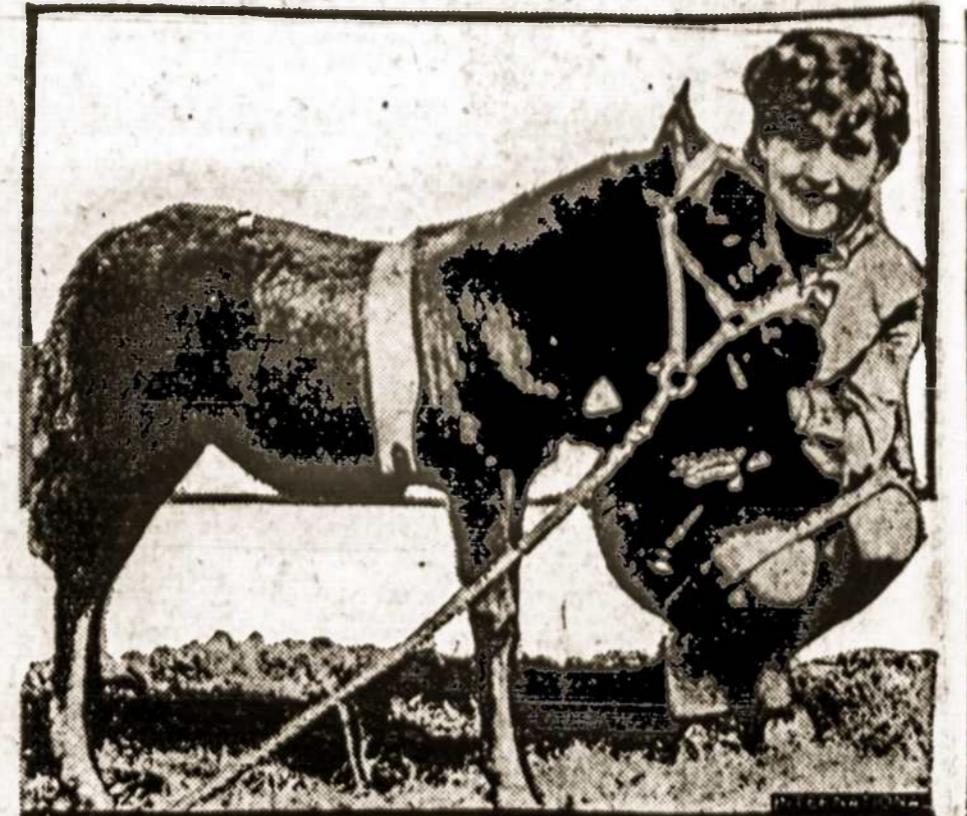

Naturally your diet is the first thing a doctor looks to when you go to him to tell you why your face keeps breaking out with unsightly eruptions. Sometimes he is right, most always he is right, but there are times when a beautiful skin will continue to be unsightly and give its owner much concern and nothing seems to stop it.

If you are having such an experience it is time you gave thought to what care you are giving to your skin. Are you using the wrong kind of soap or powder, or rouge? Perhaps the particular cold cream on your toilet list does not agree with your skin. Possibly you have a dry skin and the soap you are using contains too much alkali. Then again the acidity set up by the use of soap on YOUR skin may irritate the pores, or close them and poor elimination cause a tiny gathering of pus or fluid.

Be very discreet as to what you put on your skin and careful how you rinse soap off or remove the cold cream. Inattention to these things is liable to cause eruptions.

Never under any circumstances keep picking at a blemish. Let it alone and let nature have her chance. If you

## Problem

A New England manufacturer produces an article suited to the needs or desires of New Englanders. It must be sold through New England jobbers or retailers. How can he best know them and reach them?

## Answer

Look in our New Business Telephone Directory. It lists over 155,000 Business subscribers served by the New England Telephone and Telegraph Company. These subscribers are arranged by states and classified under appropriate business or professional headings.

You can call 20, 50, or 100 of them in a day. Give your local operator the telephone number as listed. Hold the receiver at your ear while connection is made and then—

### TRUSTING

Trusting in Him who can go with me and remain with you, and be everywhere for good, let us confidently hope that all will yet be well.—Abraham Lincoln.

### MY VOTE WON'T MATTER

As the eventful day draws near it seems worth while to print the following quotation from the political observations of Richard T. Greener: "In 1811 a Rhode Island farmer dallied to release his pig from a fence and arrived at the polls too late to cast his vote. The Federalists lost that precinct by one vote; as a result, a representative who favored war with Great Britain was elected to the legislature which in turn by a majority of one elected a United States Senator who favored war. Then the Congress, by a majority of one, declared the war, generally known as the "War of 1812." Seems as if there should be a moral to this tale.

### ADVENTURE

Life is an adventure and Frohman, upon the threshold, is said to have commented that death is the greatest adventure of all. It surely must be for those of us who believe in better things beyond the grave than even the wonderful things we have enjoyed upon earth. But unless we treat living as a continual adventure, with something thrilling most likely lurking for us around every corner, we shall miss the real zest and zip of the thing. And is it not so? No matter how seemingly small or trifling the matter, every incident of the day may be a real adventure for us, if we only treat it as such. The reason why we believe that the French, as a nation, are the happiest people on earth, is just in this one thing: they appear to get huge enjoyment out of every little incident of the day's routine. In the towns, for instance, the going to the corner store to buy a quarter of a cent's worth of onions is made a real crusade by the busy housewife, and upon her return the whole neighborhood joins in appreciative applause of her triumph. In the country, every little task in the fields or among the herds is made the occasion of lively chattering and laughter and the return from labor is a glory parade. And this spirit, even in tragic wartime, the French seemed to us to carry out in all their activities. We wonder sometimes if the fact of our having too much does not make us unduly grave at times. So far as actual fun and joy and happiness goes the most trifling little things are just as effective as the larger, without the latter's greater responsibilities. Don't make any mistake. To put it in a simile: You can have just as much fun with a cent as a dollar and real fun is Adventure.

### Communications

**Vote "No"**  
 To those who have asked for information:

No benefit can come to the average citizen by voting "Yes" on the pro-subsidial sports referendum.

Who will benefit?

Not the home, as it will take more money for all to go, whereas now all can go free to the amateur game.

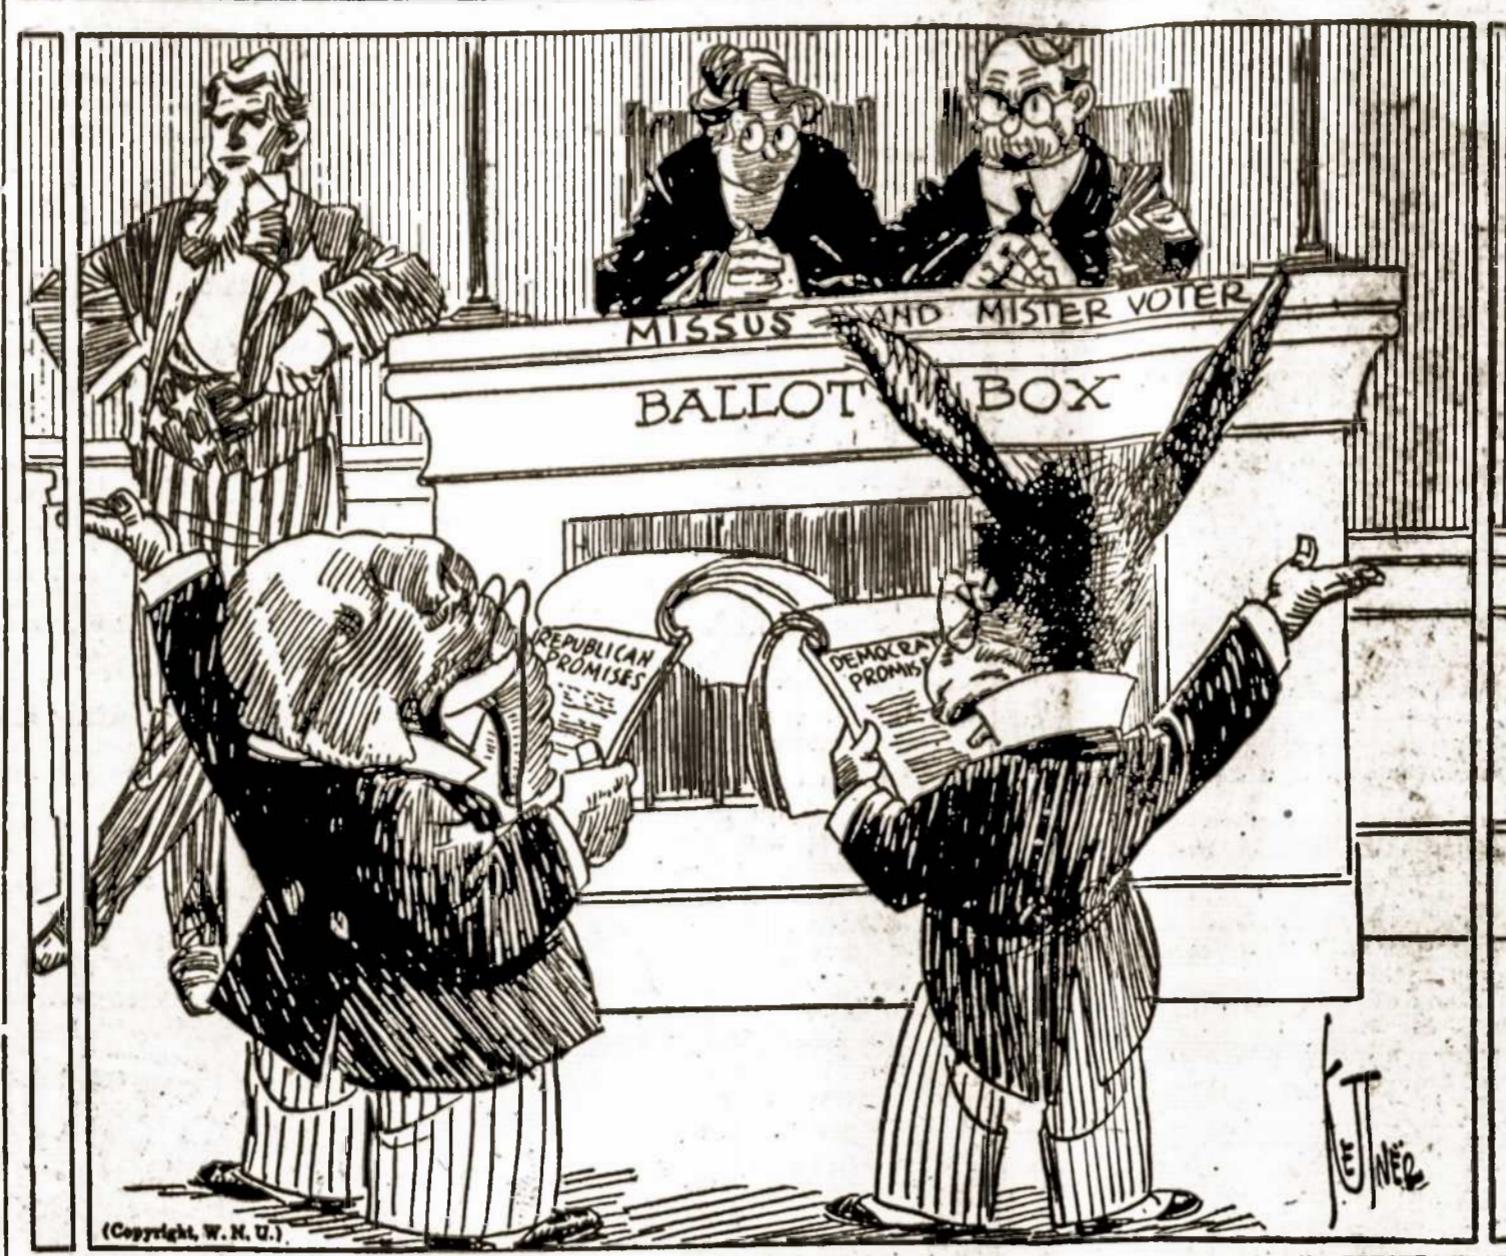

Not childhood. Children are quick to see the spirit of greed where those with money can go and those without are left to peep through knot-holes.

Not the church. The church is doing more for the people than those who take your tickets at the gate.

Not the participants. Professional athletes have a right to a day of rest. Amateur sports bring those interested together on a common plane. Professional sport divides them and fills the pockets of men looking for easy money. Vote No.

M. L. Morgan.

### Court of Final Appeal

Vote "Yes"

Major General Clarence R. Edwards, war commander of the Yankee Division, strongly urges the people of the state to vote YES on the Sunday Sports Bill in the coming election. The "Daddy of the 101st" has been an ardent supporter of the measure since its inception, and comes to the front at this time because he realizes that every possible vote must be brought to the polls on Election Day.

The Sports referendum, which seems to be highly popular throughout the state now, must get 30 percent of the total vote to be passed. Supporters are worried lest many favorable citizens will overlook the referendum, after voting for the presidential and state candidate.

Following is a letter which the General has written to the Outdoor Recreation League:

"You already have my endorsement of Sunday baseball between the hours of two and six p. m. My interest in youth and knowledge is that to keep them engaged in healthy sports on Sunday afternoon keeps away sin."

I am mindful of the appreciation that the American Legion of Massachusetts over organized baseball its cooperation with the American Legion and with their help is building up the youth of the state, morally, spiritually and mentally.

I am concerned that the people, when they go to the polls on November 6th, should not neglect to vote "YES" in favor of this referendum.

Bishop Manning's sermon delivered last January at the Cathedral of St. John the Divine, well expresses my view, which I would commend to our voters to read. Any traditional opposition, if any, would be removed.

The Federal Government not only permits Sunday afternoon baseball on its reservations, but encourages it as a means of building up the character, body and mind of our youth. They invite and encourage major league clubs to play in this state on Sunday afternoon and charge an admission fee within the boundaries of our very state and have done so for years, with a beneficial and wholesome result to the public, giving those who are engaged week-days an opportunity of playing and witnessing wholesome outdoor recreation.

Sincerely yours,  
(Signed) C. R. Edwards"

### Prescriptions Carefully Compounded

#### Harry Says:

We try to carry everything that high class drug-stores carry these days and a number of our customers think we are successful in supplying a wide range of wants; but, when all is said and done, the compounding of prescriptions is our most important business and the one in which we take special pride. The proprietor is a Registered Pharmacist and uses only the best of materials and is scrupulously careful to fill each and every prescription, exactly as written by the physician. No matter how successful we may be in other lines we will not be satisfied until we are recognized as one of the best prescription druggists in this vicinity.

## Community Club

The Community club gave a supper and entertainment in Union hall last Saturday evening which was well attended and much enjoyed by everyone who attended.

A very bountiful supper was served in the dining room from 6:30 to 8 o'clock, after which a program was put on in the hall above. This consisted of several selections by the Boys' orchestra, a song by Mrs. Malcolm Billings and an address by Alfred Evans of South Vernon. It is hard to say which was most enjoyed by the audience. They were all excellent.

The Boys' orchestra has been enlarged and now includes Lyle Glazier, piano; Lewis Wood and Kenneth Leach, violins; Melvin Glazier, saxophone and Seth Field drums. We hope to hear them again.

Much credit is due to the members of the social committee. They must have put in much hard work in preparation for the occasion. And we are sure that everyone who attended will be looking forward to their next event. An affair of this kind is very enjoyable and we hope the social committee will plan many more for the coming months.

MANY PHASES OF THE VERY LITTLE  
HAT PRESENTED THIS SEASON

The very little hat continues to hold the center of the stage. And what a versatile program it is playing! Novelty is indeed the keynote of its success. It interprets chic not only through unique styling, but from the fact that it employs such interesting and varied media ranging from feathers to the very new tricot over which Paris raves.

Below to the right is another expression of the draped velvet toque, such as is finding favor with the smart set, because it bespeaks the derring of the millinery mode. The velvet is draped over a felt skullcap of identical color.

The latest in feather turbans is shown to the left. The polka dots are painted. They are immensely clever, adding a piquant note to the autumn costume. They are mostly in black and white although brown with yellow dots are also cited.

## TORCHLIGHT PARADE

## Biggest Thing of Its Kind Ever Held Here

Hinsdale was very much alive Monday night with the biggest torch light parade ever held in town. It was under the supervision of J. W. Field of the Republican State committee. The parade formed at G. E. Robertson's Paper Mill yard at 7:15 p. m. as follows: Marshal, Carl Johnson on horseback; American flag, J. N. Howe; Uncle Sam by Chief of Police William Starkey; elephant by Levi Howard; selectmen in auto; Brattleboro High school band; auto with Mr. and Mrs. Edward Bergeron and Mr. and Mrs. Peter Dupee, old Republican leaders; 50 men with torches; auto with ladies; 200 men with red fire; a real goat led by Richard Dodge; truck, Granite State Mowing Machine Co., with Republican cards on all sides; auto with ladies; hay rack with load of hay and two farmers with sign "Hoover is for the Farmer"; Granite State Mowing Machine Co.; auto with ladies; donkey by Rufus Perham; 20 autos filled with ladies.

The line of march was down Canal street, High street, Brattleboro road, Northfield street, Main street to town hall. Twelve illuminated signs were in the parade. After the audience were seated, J. N. Howe with the flag, Uncle Sam, the elephant, the speakers and others followed by the band marched onto the stage and were given a wild reception.

W. G. Booth, chairman of the Hinsdale Republican club and a member of the state committee opened the meeting and introduced J. W. Field as the presiding officer for the evening. Mr. Field welcomed the audience and speakers. "America" was sung by all and played by the band which furnished many selections during the evening. Three cheers were given for Hoover and Curtis.

The first speaker of the evening was next introduced, Rev. E. P. Daniels of Milford, N. H., chaplain of the 1927 legislature, who spoke about the Republican party, a comparison of the Republican and Democratic parties, and also the duty of all to vote. Many times he was applauded during his speech.

In introducing Hon. Edward H. Wason of Nashua, the Republican candidate for re-election for Congress, Mr. Field spoke of the high esteem that both parties have for Mr. Wason and the manner in which he conducts his official business. Mr. Wason spoke about the tariff, its effect upon industry and the laborer; a review of the two parties during the past 15 years and closed by saying that he believed the national and world wide experience of Mr. Hoover made him exceptionally qualified for the position of president of the United States.

Mrs. George E. Robertson, a member of the state Republican Women's organization, was in charge of preparing and serving a lunch in the dining room at the town hall for the Brattleboro High school band.

The success of the evening was due to the committee of 20, including some of the leading business men of the town.

## Masquerade Ball

There was a very large attendance at the annual Hallowe'en masquerade ball held in the town hall last Friday evening under the auspices of the junior class of the local high school.

The grand march which started at 8 o'clock was led by Prof. and Mrs. Cleon B. Johnson and they were followed by approximately 40 couple, twelve couple being masked.

First prize was won by Mrs. Leroy McGuligan, Jr., of this town and Miss Norris of Brattleboro, who represented Colonial dames, and second prize was awarded Miss Shirley Smith and Meta McCormick as they represented the high, hot costumes. The hall was prettily decorated to represent Hallowe'en.

Dancing was enjoyed until one o'clock with music by Williamson's six piece orchestra. At intermission refreshments of sandwiches, assorted cakes, and coffee were served.

## Rebekah Lodge

Queen Esther Rebekah Lodge, No. 64, conducted a Hallowe'en party in their hall last Wednesday evening and about 40 people attended.

A fine musical program was rendered in which Mrs. Clayton Stanclift, Miss Thelma Townsend, Laura Rimbald and Howard McDonald took part.

Games of cards were enjoyed and refreshments of pumpkin pie, mystery cake, doughnuts, coffee, and sweet cider were served. Visitors were present from Winchester, N. H.

## State Constitution

Those obsessed with a desire to tinker with the Constitution of New Hampshire will have brought before the voters of the state at the general election on November 6, the question of whether a constitutional convention shall be held the coming year.

There is absolutely no reason for such a convention. If every voter in New Hampshire will do his and her duty this question will be emphatically answered "no".

Periodically we have been convening a Constitutional convention and that body has submitted many proposals of amendment to the basic law of the state.

Each convention produces the same results—nothing.

Each convention is productive of no results because the voters periodically reject the proposals of amendment, or practically all of them. Why converse the convention next year? There is nothing to be gained.

The legislature is competent to enact such statutes as may be required without further constitutional authority.

The desire to tear a constitution to pieces is not peculiar to New Hampshire. There are groups in many states that would resort to this procedure whenever they wish to change existing statutes. Similar groups are intent on tinkering with the federal Constitution.

Leave the Constitution of New Hampshire alone.

Vote No when you find the question submitted to you in the voting booth on November 6. Urge your neighbors to join with you in a state-wide movement to discourage the efforts of the Constitution tinkers.

## Exide Batteries

Two and one-half tons of storage batteries are now on the way to the South Pole with the Byrd Antarctic Expedition, according to Howard I. Streeter, the local dealer. "All of these," said Mr. Streeter, "are Exides. With this equipment, Commander Byrd and his party will maintain radio communication with the world at large; also between the main base and the various sub-bases and exploration parties.

This is the largest equipment of storage batteries which has ever been taken from the beaten paths of civilization. But the experience of explorers like Byrd, MacMillan, Amundsen and others have taught them that the modern storage battery adds to the electrical equipment of the explorer the element of absolute dependability which is so necessary when human lives may hang in the balance. Commander Byrd found his Exide batteries valuable pieces of airplane radio equipment when he accompanied Dr. MacMillan to the Arctic in 1925; also when he flew over the North Pole in 1926, and across the Atlantic in 1927.

Another interesting use for storage batteries on this expedition will be for engine starting and ignition on the snow tractors, which Commander Byrd is taking with him. And still another set of Exides will be used for starting the engine in the electric power plant which will furnish the light and power at the main base.

In assisting the engineers of the Byrd Expedition to pick the correct types of batteries, the technical departments of The Electric Storage Battery Co., manufacturers of Exide batteries, were aided by their experience gained in equipping numerous other expeditions to various parts of the unexplored world. It is believed that this experience will be enriched by valuable battery data which will be furnished through the co-operation of the engineers of the Byrd Expedition."

## Gates Flying Circus

Two airplanes of the Gates Flying Circus reached here Saturday morning from Claremont, N. H., and were here for three days, giving a series of exhibition flights and carrying passengers. Their headquarters were at the field on the Walter Smith farm, North Hinsdale.

In speaking of the record of the circus, Manager Brooks said that it had been flying for 10 years and in that time had but one fatal accident. This season the circus has appeared in Providence and Westerly, R. I., Nashua, Portsmouth, Dover and Claremont, N. H., Haverhill and Lawrence, Mass., Bangor, Augusta, and Lewiston, Maine.

In Claremont, N. H., where the Gates outfit operated for four days last week, permission to use the local airport was granted only after investigation and reports from there indicated that everything was satisfactory.

In addition to carrying a large number of passengers the planes did a lot of stunt flying which apparently could not have been done with machines not fitted to stand the strain. The circus maintained a large ground force and apparently everything was done to keep the planes in repair.

According to W. H. Beardsley, chairman of the aeronautic committee of

the Vermont chamber of commerce, Massachusetts and Connecticut have a regulation which prevents the flying of any aircraft with more persons in it than the aircraft was designed for, and under this regulation the Gates circus could not carry four passengers at a time in any of its planes in those states.

According to information obtained the Gates Flying Circus gave exhibitions and made flights with passengers in Stamford, Bridgeport, Milford, Meriden and New Britain, Conn., last season but abandoned plans for a similar exhibition in Hartford because of question as to whether its equipment was up to standard requirements. The circus asked permission of State Aviation Commissioner Clarence Know to fly in Connecticut this season and was told by him that permission would be granted if its equipment came up to the standard, required by Connecticut state law.

Miss Helen McGuigan of Springfield, Mass., visited her parents here over Sunday.

There will be a meeting of the Parent-Teacher association at the high school building on Friday at 8 p. m. There will be an address by State President Mrs. Fred Libby of Franklin and musical numbers by Miss Marion Webster, musical instructor in the public schools.

It Will Pay YOU

to have a Standing Card in

This SHOPPING DIRECTORY

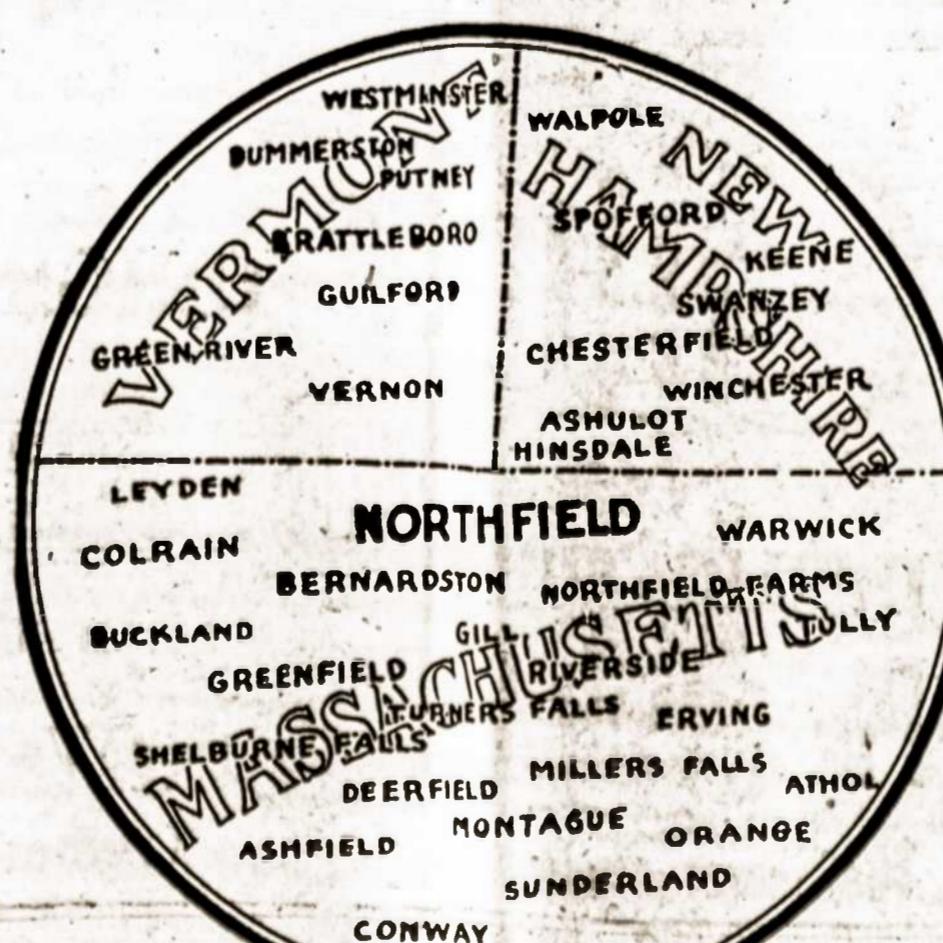

so that YOUR NAME and BUSINESS will be printed each and every week; and then, when the occasions warrant you can do Special Advertising elsewhere in the paper, so as to steadily build up and develop your business. This standing card in the Directory is just what it is called—and is valuable in itself, but it is not Advertising, in the real meaning of the word.

Moreover, we do not accept any larger space for it than two inches; nor do we accept it from any advertiser who is not personally known to us.

The cost is \$3.00 per inch for three months (13 insertions) payable quarterly; \$6.00 for two inch space for three months (13 insertions) payable quarterly.

It is a mighty good opportunity for the ones who can qualify at this time to get some systematic and economical publicity.

## "WANT" ADVERTISEMENTS

One cent per word per insertion; no advertisement less than twenty-five cents; three insertions for the price of two times. Special rates for standing "want" advertisements by the month. Always send cash (unused postage stamps will do) for want advertisements, as we cannot afford bookkeeping at these rates.
